

# Practical approaches to advance diabetes care

**Location:**

Palau de Congressos de Catalunya  
Barcelona, Spain

**When:**

Thursday 8 November 2012

**Time:**

13.00 – 18.00

**You are invited** to join a distinguished panel of global thought leaders for a comprehensive look at the timely and important topics of interest to those treating people with type 1 and type 2 diabetes today.

This is a dynamic programme in which every participant will have the opportunity for a truly hands-on experience. Delegate and panelist alike will share their ideas, inspiration and lessons learned from the clinic - to pursue the goal of advancing diabetes care.

A unique and interactive patient case exercise, utilising the state-of-the-art iPad, will focus on GLP-1s, insulin and combination therapy and will attempt to answer the question: "what is the optimal treatment approach for your patients?".

Time	Topic	Speaker
13.00 – 13.15	<b>Welcome and introduction</b>	Jiten Vora (UK) <i>Chair</i>
